What skills and experience do you bring that would enhance your contribution to the DIT? *

I think that I can bring a lot of valuable skills to the DIT. I am respectfully (and rationally) opinionated without being argumentative, I have good ideas to help with efficiency and seeing a common sense solution to problems, I am good at looking at challenges from multiple points of view, and I work great under deadlines and timelines. I have served on the CIT at Stratford two different times, the most recent being the 2020-2022 term.

What are the major challenges you see SBISD facing in the next two years? *

I think that the biggest issue in the next two years is going to be funding and its impact on a broad range of areas in SBISD - from teacher units, to technology, to efficient and effective custodial and maintenance needs, to facility upgrades, to extra-curriculars, like athletics.

What role do you see the DIT having to address these challenges? *

I think that it's important for challenges to be looked at from a wide range of perspectives from across the district and the DIT provides a unique way to achieve that.

What knowledge and/or experience do you hope to gain by serving as a DIT member? *

The main thing I'd like to gain by being on DIT is a better global view of our district and her challenges. As the varsity volleyball coach and assistant CAD at Stratford, I have a larger view of our campus' issues than the average coach, and it's helped me to be a more selfless leader within my program and how I interact with other coaches. I feel like being on DIT will continue to develop a broader mindset.
