Please answer the following questions (print or type):

1. What qualities do you possess which enable you to make contributions to the DIT?
I have been teaching for 17 years, the last 8 in SBISD, and have been a SBISD parent for the better part of the last decade. Having been part of the district for such a period of time has given me a unique perspective into multiple areas including the secondary classroom, the parent community, curriculum, technology, CTE, GT, DC, and budgets. I am also a former DIT member.
2. What are the major challenges you see SBISD facing in the next two years?
Finances and technology integration are ongoing concerns in this day and age. Using all of our resources to enhance learning instead of using them for their own sake is a struggle that requires deliberate thought and implementation.

Spring Branch Independent School District

3. What role do you see the DIT having in addressing these challenges?
DIT could be, not only a voice for the community at large, but also a sounding board for district initiatives and goals.

4. Please discuss any issue/concern/observation you have that has not been addressed.
