Please answer the following questions (print or type):

- What qualities do you possess which enable you to make contributions to the DIT?
We have lived in the district for over 30 years, our children are all SBISD graduates, and I've been working in SBISD since 2005. I have a great love for our Spring Branch community and want to work to make our schools the best they can be for our children and their families.
- What are the major challenges you see SBISD facing in the next two years?
Our community is changing quickly. New homes are being built all over our area, which means new families and new students for us. Many of these young families are choosing to send their children to private schools or leave SBISD when their children reach school age. We need to make sure our schools provide a good educational opportunity for all our children so parents can feel confident about choosing SBISD. Also, the recapture situation in Austin continues to be a challenge as our budget continues to shrink. I'm hopeful the legislature will fix this in this session.

Spring Branch Independent School District

3. What role do you see the DIT having in addressing these challenges?
The diversity of roles on this team bring a diversity of ideas and viewpoints together. As a high school teacher, I'd love to know more about what goes on at the elementary and middle schools, and how we, along with parents and community members, can best provide for our diverse students. The opportunities for collaboration on the DIT are exciting.
4. Please discuss any issue/concern/observation you have that has not been addressed.
